HARVARD MEDICAL SCHOOL

This course provides a single immersive experience to ensure that you are current with the most important clinical changes and innovations impacting primary care.

We are committed to your learning and professional growth and draw our faculty from the best clinical educators from Harvard Medical School and the Harvard-affiliated hospitals.

Comprehensive clinical and practice updates and guidance for care management:

- Hypertension: Sorting through conflicting recommendations
- Diabetes: Developing innovative treatment strategies for your most challenging patients
- Cholesterol management: Setting targets and achieving goals specific to patient risk
- Anticoagulation: Choosing the best anticoagulant for each patient
- Disease prevention and health promotion: Setting priorities and finding effective messages
- Biomodulators: What you need to know in primary care
- Clinical examination skills: Improving your techniques
- Opioids: State-of-the-art approaches to dosing, patient selection, addiction and weaning
- Self-care: Take the time to enjoy learning and renew your knowledge

Interactive learning around the most important questions you face:

- How do new approaches complement your current practices and improve patient care?
- What can be done with the pressing behavioral challenges of opioids, marijuana, alcohol?
- What are the key lifestyle messages in primary care?
- How do we decide which guidelines to follow for the individual patient?
- What can we do to build greater trust with patients?
- How do we professionally survive, grow, and thrive?

Together with Harvard's leading clinical faculty — representing more than 30 fields of medicine — we have created an educational program expressly for primary care clinicians.

Our updates are evidence based, relevant, and effectively presented for clinical practice. Our standards are high. We have years of experience in clinical education and are committed to high-value learning. We hope you will join us.

Course Director

John D. Goodson, MD
Associate Professor of Medicine
Harvard Medical School
Physician, Massachusetts General Hospital
Practitioner of and Advocate for Primary Care

Choose from 48 hands-on and clinical innovation workshops to customize your learning experience for your specific practice needs and interests.

- Pain management
- Preoperative evaluation
- Complex diabetes
- Medical marijuana
- Suturing techniques
- Otolaryngology

- Dermatology
- Ophthalmology
- Movement disorders
- Gynecology
- Allergy
- GI cases

- Thyroid disorders
- Prostate conditions
- Joint examination skills
- Dementia and delirium
- Incontinence management
- Travel medicine

Updates for Clinical Practice

Now offering ABIM MOC Points

This course is designed by and for primary care clinicians with the goal to:

- Update and sharpen your knowledge base for day-to-day practice
- Provide practical clinical value you can readily incorporate into patient care
- Empower you to innovate to improve patient outcomes
- Build your technical abilities with skills development workshops
- Improve your abilities to assess new diagnostic and treatment options
- Support your personal commitment to professionally satisfying, patient-centered, continuous, accessible, high-quality care
- Understand how to favorably influence the day-to-day lifestyle decisions of patients in order to improve their health and welfare

Our goal is your professional satisfaction. We are committed to education free from distraction. We want you to establish your own curriculum with your workshop selections. This course will expand your knowledge of the most dynamic and clinically relevant components of general internal medicine, improve your confidence and competence as a primary care clinician, and lead you to implement improved clinical strategies. The environment has been structured to facilitate your incorporation of new knowledge into patient care. Presentations are focused, lively, and case based. Our faculty has been selected from the best clinical educators of Harvard Medical School and its affiliated hospitals.

Who Attends

Physicians, NPs and PAs can rely on this program for comprehensive updates that ensure you are current with state-of-the-art strategies and practices for primary care medicine.

- Internists
- Family Physicians
- Specialists with primary care responsibilities
- Nurse Practitioners
- Physician Assistants
- Advanced Practice Nurses

Practitioners should always consult additional sources of information and exercise their best professional judgment before making clinical decisions of any kind.

Primary Care Internal Medicine 2019

Learning Objectives

Upon completion of this course, participants will be able to:

- Develop new and innovative skills in clinical problem solving to achieve the best outcomes for all patients
- Evaluate updated guidelines for the care of the most common conditions of outpatient practice: hypertension, diabetes and hypercholesterolemia
- Design practical and effective approaches to behavioral issues, including partner violence, alcohol and marijuana misuse, and opioid addiction
- Assess the clinical value of specific diagnostic tests used in general internal medicine and specialty practices, including test sensitivity, specificity and predictive values
- Identify the disease prevention and health promotion priorities of general internal medicine
- Recognize the side effects and interactions among medications prescribed by primary care clinicians and their consultants
- Develop a working understanding of biomodulators and the interactions of these novel agents with the medications prescribed in primary care practice
- Discuss the expected results of therapies and summarize current treatment strategies for cardiovascular, pulmonary, neurologic/neurovascular, endocrine, ophthalmic, orthopedic, immunologic, reproductive, dermatologic, gastrointestinal, hepatic, geriatric, psychiatric, metabolic, and sleep medicine conditions
- Describe optimal pain control, including opioid management and buprenorphine treatment
- Apply evidence-based palliative care strategies in clinical practice
- Explain how national payment policies impact primary care practice
- Demonstrate clinical examination skills
- Integrate lifestyle messages into daily practice and self-care
- Develop a renewed understanding of how to best manage the stresses that are part of your professional commitment to patient care, continuity, and access

MOC STATEMENT

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 45.00 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

Friday Afternoon, October 25

1:45 – 5:00 **Optional Half-Day Add-On Program**

Lifestyle Medicine in Primary Care Practice

*Under the Direction of
Edward M. Phillips, MD*

This special program teaches expedient, evidence-based lifestyle medicine interventions for preventing, treating, and even reversing chronic disease.

Participants learn:

- State-of-the-art approaches to weight loss, stress, resiliency, sleep quality and nutrition within a primary care setting
- Guidance to prescribe exercise for maximal health impact
- Techniques for health coaching and motivational interviewing
- Strategies for empowering patients to adopt plant-based home cooking
- Tips for engaging patients
- Best practices for incorporating lifestyle medicine into your current practice

*There are many convenient and varied lunch and dinner options within a short walking distance of the course.

**Meets criteria for Risk Management credit in Massachusetts.

Program changes/substitutions may be made without notice. To view the most up-to-date version of the course program, please visit the course website.

Earn up to:

- 45.00 AMA PRA Category 1 Credits™
- 45.00 ABIM MOC Points
- 45.00 AAFP Prescribed credits
- 11.50 Credits of Risk Management Study
- 2.50 Credits of Opioid Education and Pain Management Training
- 2.50 Credits of End-of-Life Care Studies
- 1.25 Credits of Medical Use of Marijuana Training

Beth Israel Deaconess Medical Center

Accreditation

The Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The Harvard Medical School designates this live activity for a maximum of 45.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AMERICAN ACADEMY OF FAMILY PHYSICIANS

This Live activity, Primary Care Internal Medicine 2019, with a beginning date of 10/21/2019, has been reviewed and is acceptable for up to 45.00 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

RISK MANAGEMENT

This activity meets the criteria of the Massachusetts Board of Registration in Medicine for 11.50 credits of Risk Management Study. This includes 2.50 credits of Opioid Education and Pain Management Training, 2.50 credits in End-of-Life Care Studies, and 1.25 Credits of Medical Use of Marijuana Training.¹ Please check your individual state licensing board requirements before claiming these credits.

¹ This activity covers topics required by the Massachusetts Department of Public Health to be included in continuing professional development programs that physicians registered with the state's Medical Use of Marijuana Program must complete as a condition to issuing written certifications to qualifying patients.

NURSE PRACTITIONERS, REGISTERED NURSES and PHYSICIAN ASSISTANTS

For the purpose of recertification, the American Academy of Nurse Practitioners Certification Board and American Nurses Credentialing Center accept AMA PRA Category 1 Credit™ issued by organizations accredited by the ACCME (Accreditation Council for Continuing Medical Education). We would also suggest that learners check with their state licensing board to ensure they accept reciprocity with AMA PRA Category 1 Credit™ for re-licensure.

The National Commission on Certification of Physician Assistants (NCCPA) states that AMA PRA Category 1 Credits™ are acceptable for continuing medical education requirements for recertification. We would also suggest that learners check with their state licensing board to ensure they accept reciprocity with AMA PRA Category 1 Credit™ for re-licensure.

CANADIAN and EUROPEAN ACCREDITATION

The Royal College of Physicians and Surgeons of Canada recognizes conferences and workshops held outside of Canada that are developed by a university, academy, hospital, specialty society or college as accredited group learning activities.

Through an agreement between the American Medical Association and the European Union of Medical Specialists, physicians may convert AMA PRA Category 1 Credit™ to an equivalent number of European CME Credits® (ECMECs®). Information on the process of converting AMA PRA Category 1 Credits™ to ECMECs® can be found at: www.eaccme.eu.

HARVARD MEDICAL SCHOOL

This program has sold out in past years. Early registration for the 2019 program is strongly recommended.

Primary Care Internal Medicine

October 21–25 • Cambridge, MA

Course #732255-2001

	Register after September 20, 2019	Register on or before September 20, 2019
Physicians	\$1,795	\$1,695 (SAVE \$100)
Residents, Fellows, and Allied Health Professionals	\$1,695	\$1,595 (SAVE \$100)
OPTIONAL HALF-DAY ADD-ON PROGRAM		
Lifestyle Medicine in Primary Care Practice <i>Friday, October 25, 1:45 pm – 5:00 pm</i>	\$175	\$150 (SAVE \$25)

Tuition includes all breakfasts, morning and afternoon refreshments, lunches on Wednesday and Thursday, and a special program on Wednesday evening. Complimentary internet access will be provided in the meeting room throughout the course.

Course Materials: All attendees of Primary Care Internal Medicine will receive a flash drive containing course materials. If you would like a printed copy of these materials, you can purchase them in advance for \$50 with your online course registration. A very limited supply will be available on site at the course for \$90.

Registration, Payment, Confirmation and Refund Policy

Registrations for Harvard Medical School CME programs are made via our secure online registration system. To register for this course, please visit the course website at PCIM.HMSCME.com.

At the end of the registration process, a \$10 non-refundable processing fee will be added to your registration, and you will have the choice of paying by check, credit card (Visa, MasterCard, or American Express), or wire transfer in USD. If you are paying by check (draft on a United States bank) or by wire transfer, the online registration system will provide you with instructions for remitting your course fees. Postal, telephone, fax, and cash-payment registrations are not accepted. All fees shown in USD.

Upon receipt of your paid registration, an email confirmation will be sent to you. Be sure to include an email address that you check frequently. Your email address is used for critical information, including registration confirmation, evaluation, and certificate. **Please do not make non-refundable travel arrangements until you have received an email from our office confirming your paid registration.** Refunds, less an administrative fee of \$75, will be issued for all cancellations received two weeks prior to the start of the course. Refund requests must be received by email. No refund will be issued should cancellation occur less than two weeks prior. "No shows" are subject to the full course fee and no refunds will be issued once the course has started.

Questions? Call 617-384-8600 Monday-Friday 9am – 5pm (ET) or send an email to CEPrograms@hms.harvard.edu

Venue

Boston Marriott Cambridge
Two Cambridge Center
50 Broadway
Cambridge, MA 02142
Telephone: 617-494-6600

This program is among the highest-rated Harvard Medical School CME courses. Early registration is strongly recommended.

Accommodations

Boston Marriott Cambridge has reserved a block of discounted rooms for course participants.

Important to note:

- The number of discounted rooms is limited.
- Discounted rooms are available on a first-come, first-served basis.
- The discounted room rate is only available until September 28, 2019, or until the block sells out, which typically happens well in advance of this date.

To reserve your room:

- **Online:** To reserve your room online, please visit the Venue page of the course website at PCIM.HMSCME.com/Venue and use the dedicated room reservation link.
- **By phone:** If you are calling the hotel rather than using the dedicated link to request a discounted room, please call 617-494-6600 or 800-228-9290 and be sure to specify that you are enrolled in HMS Primary Care Internal Medicine.
